## Sterile Supply Technician: Job Description and Education ...

For technician certification, the test-taker must have either completed a relevant sterile processing technician training course or have 6-12 months' professional experience in the field.

What does a Central Sterile Processing Technician do? While the above example is a bit extreme, doctors really do have specialized skills. It's also important to note that just because they have these skills doesn't mean they know everything about running a hospital or medical practice. That's why having a central supply technician in a surgical practice is essential.
