Orthographic Projection

Here i will teach you how to draw an Orthographic Projection using the standard view (top view, front view and right side view). Enjoy!!

Orthographic projection - Wikipedia

Orthographic projection (sometimes orthogonal projection), is a means of representing three-dimensional objects in two dimensions. It is a form of parallel projection , in which all the projection lines are orthogonal to the projection plane . [1] resulting in every plane of the scene appearing in affine transformation on the viewing surface.

Orthographic Projections - eCollege

orthographic drawing as shown below. The front and side views are drawn in line with each other so that the side view may be projected from the front view and visa versa.
