Design of a Solar Tracking System for Renewable Energy

Intelligent solar energy systems now available on the market, but the design team of this project is striving to offer the Design of a Solar Tracking System for Advantages and disadvantages of a sun tracker system Solar trackers are generally designed for climates with little to no snow making them a more viable solution in warmer climates. Fixed racking accommodates harsher environmental conditions more easily than tracking systems. Fixed tracking systems offer more field adjustability than single-axis tracking systems. Fixed systems can generally accommodate up to 20% slopes in the E/W direction while tracking systems typically offer less of a slope accommodation usually around 10% in the N/S direction.

Solartracker Wikipedia

Die weltgrößte Suntrackeranlage hat eine Solarfläche von 650 m und wurde von der Firma SunDriver Systems AG aus Zug/Schweiz entwickelt. Für dieses Gesamtsystem mit neu entwickelten und patentrechtlich geschützten Lösungen wurde der Hersteller 2010 mit dem Solar-Industry-Award in der Kategorie Integrierte Lösungen ausgezeichnet.
