Magnetic Swipe Card System Security - UMD Department of ...

Magnetic Swipe Card System Security Page 6 of 26. LNL-2010W Card Reader The LNL-2010W is the basic reader used at nearly every door on campus (see picture on the right). It is pin-compatible with readers by many other manufacturers, such as the Mercury Security MR-10 and the Best Access Systems BAS-2010W. In many places on the UMD campus, the Lenel readers are replaced by these other pin

RFID Door Locks | GoKeyless

RFID Door Locks For years the only available card entry technology has been swipe card. That is now changing as swipe cards have a tendency to lose their magnetic strength over time, (hotel room keys!) and the swipe readers are too vulnerable to spills, and dirt and dust collection, rendering them useless.

Security

It is possible for a card holder to swipe their smart card to gain entry to the car park, open the front door of the office, and turn the alarm off. Then the user could then swipe their card to activate the photocopier for example. Solicitors have been using this concept for many years to ensure they bill every little thing.
