Return on equity | The Actuary, the official magazine of ...

In general, a company's success is measured by its return on equity (ROE). However, this measure is rarely used as a performance benchmark for insurance companies. Instead, the combined ratio (CR) is used as the benchmark for technical performance, where claims expenditure and operating expenses are compared with premium. But the CR does not consider the variance in risk for individual

Property Insurance: Coinsurance | Expert Commentary | IRML.com

This is why a risk management professional should hear the melody of "Don't Let Me Be Misunderstood" whenever the term "coinsurance" is discussed in any insurance

policy, especially any form of property insurance.

Insurance - Wikipedia

The term property insurance may, like casualty insurance, be used as a broad category of various subtypes of insurance. All-risk insurance is different from peril-specific insurance that cover losses from only those perils listed in the policy. In car insurance, all-risk policy includes also the damages caused by the own driver. High value horses may be insured under a bloodstock policy
